ADDITIONAL INFORMATION

The mission of the School Based Health Centers is to **improve the health of students and faculty, increase access to primary health care** and **decrease time lost from school by providing care** within the school setting. We are a **convenient source of quality health care** that works in collaboration with your child's doctor and the school nurse.

SERVICES: In addition to the services mentioned above, SBHC providers can assist in managing chronic illnesses, conduct *Healthy Child Chats*, provide health education, referrals to specialists and sports physicals for school endorsed sports. Whenever your child is seen by the Health Center staff, a note is sent home that details the visit. Additionally, a report on the visit is shared with your child's primary health care provider.

COST: Federal and state regulations require all providers, including Choptank Community Health (CCHS), to bill all patients for School Based Health Center program services. The Medicaid programs cover School Based Health Center charges. If your child has health insurance, we will bill the insurance company for health services and follow the billing requirements associated with your plan. Depending on your insurance plan, you may receive a bill from CCHS for copays, unmet deductibles and any non-covered services. If CCHS is not a participating provider with your insurance plan, you will be billed directly for services. If you do not have insurance, we offer a sliding fee scale. Finally, the cost associated with lab services will be billed to your insurance. Bills for these tests will come directly from the lab company.
