

# Caring, Comprehensive & Integrated Healthcare

*Proudly serving the Mid-Shore region*

**CHOPTANK**  
community health  
*See how healthy you can be!*

**[WWW.CHOPTANKHEALTH.ORG](http://WWW.CHOPTANKHEALTH.ORG)**

# Choptank Health offers caring, integrated healthcare to all.

We are one of the largest and highest-rated healthcare providers in the region. We accept private insurance, Medicare, and Medicaid. Financial assistance is available to those who qualify.

## 97% SATISFACTION RATE

More than 97% of Choptank patients say they trust their provider to help with all of their health concerns over the last three years.

# 93 %

OF PATIENTS ARE VERY LIKELY TO RECOMMEND CHOPTANK TO THEIR FRIENDS AND FAMILY.

## Federally Qualified Health Center

Choptank Health is a Federally Qualified Health Center (FQHC). FQHCs operate in areas with reduced access to medical care, bringing vital healthcare services to the community. As an FQHC, we offer a comprehensive approach to patient care. We treat the whole patient through our integrated services that include primary and preventative care, dentistry, mental health services, and more. We serve patients in Caroline, Dorchester, Kent, Queen Anne's, and Talbot Counties.

# OUR SERVICES

## Primary Care

Our providers partner with patients to prevent, diagnose, and treat conditions in people of all ages. Services include regular checkups, immunizations, sick visits, and support in managing chronic conditions.

## Pediatrics

Our pediatricians provide primary care services for babies, children, and teenagers up to age 21.

## Dental Care

Dental services include regular checkups, cleanings, x-rays, dental sealants, and fluoride treatments; dentures; and oral surgery services including tooth extractions and root canals.

## Behavioral Health

Behavioral Health services are available to current medical or dental patients. A wide range of services are available to support patients' mental health and wellbeing, including therapy and medication management.

## Women's Health

Women's Health services include wellness exams, gynecological screenings, and contraception counseling.

## Prenatal Care

Prenatal care is provided to people with low-risk pregnancies, including regular checkups and prenatal testing.

## Medication Assisted Treatment (MAT)

These services support recovery by providing care to the whole patient, including the use of medications in combination with counseling and behavioral health therapies.

## School-Based Health

Choptank Health has partnered with public school districts to offer medical, dental, and/or behavioral health services to students inside their schools. School-based health services are available in Caroline, Dorchester, Kent, Queen Anne's, and Talbot Counties.

*Choptank is a great place with great people who actually respect the patients.*

- Choptank Health Medical Patient

*Every aspect of my dealings with the dental staff is always a 10. From the greetings when I first get there, to the knowledge of surgery done on my spine requiring a pillow till, to the time I leave.*

- Choptank Health Dental Patient
